### Letter of Recommendation

We take privilege to introduce **MR. RAHMATULLAH HAYATULLAH** whom we have known as a hard worker thought his three years of under graduate study during his course of time he has been our student for the following subjects

C++ and RDBMS (Semester III & IV)

Project and Java (Semester VI)

He was found sincere, dedicated and a keen learner towards the subjects that we taught his, we recall his interest in programming languages which include some important concepts like OOPs, Applet, JDBC connectivity, PHP with My SQL for the software development.

He always volunteered in every curricular activity organized by college and was often found in the library helping students with their study.

He was known among the professors and fellow pupils due to his excellent communication skill pleasant and helpful nature. We would like to point out that he is a boy with impeccable manners and flawless integrity.

He wishes to do his higher study from university and we would like to recommend without any hesitation that a student with such firm determination calibre will definitely be an asset to your university. We would like to request you to grant his an admission in to the master programme and wish his for a very bright future.

Prof. Binal M. Patel
